LOOM SECURITY

SIMPLIFYING THE COMPLEX

WHAT WE DO:

SIMPLIFYING THE COMPLEX

- Security Service Edge (SSE)
- Zero Trust Network Access (ZNTA)
- SD-WAN
- Firewall as a Service
- Cloud Security Access Broker (CASB)
- Security Web Gateway (SWG)
- Cloud Native Application Protection Platform (CNAPP)
- API Security
- Process Automation

WE SECURE MOST ANYTHING, MOST ANYONE, MOST ANYWHERE, IN THE MOST EFFECTIVE WAY POSSIBLE

Around 5 Million IT jobs will be added by 2027, with a large percentage of these individuals working remote at least portions of the week. The ability to secure and optimize the current environment is an ongoing challenge. Loom can partner to advise or take on people, process, and technology optimization or automation.

FULL-SERVICE LIFECYCLE

Acquisition, process optimization, deploy, and operational-ize SASE and Cloud Security Framework adoption for remote workforce, internet or cloud hosted applications, and/or advanced identity decisions like Zero Trust.
